EXAMINER'S AMENDMENT

1. The application has been amended as follows:

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas J. Krul on June 12, 2006.

The application has been amended as follows:

In the list of claims,

Claim 12: At line 5 after "of indicators," insert --positioned adjacent to an entrance into the mobile platform,--

At line 11, after "location" insert --, at least one first designator position on the mimic, wherein a location of the first designator visually defines a corresponding location of a piece of fire fighting equipment located--.

Claim 17: replace "16" with --12--

Claim 19: (Cancelled).

Claim 20: replace "19" with --12--

Claims 29-32: (Cancelled).

Claim 33: at line 7, after "alarm condition;" insert --wherein said smoke detectors and heat sensors, each connectable through a control loop to a predetermined indicator on the panel--.

Art Unit: 2612

2. The following is an examiner's statement of reasons for allowance: The present invention is directed to a mobile platform fire detection system. Each independent claim identifies the uniquely distinct features "a plurality of smoke detectors and heat sensors positioned in a mobile compartment, each connectable through a control loop to a predetermined indicator on a remote panel, said panel positioned proximate to an entrance to the mobile compartment, and the panel having a plurality of indicators that operably and visually distinguishing a first alarm smoke detector from a second and any subsequent alarm ones of the plurality of smoke detectors, and operably identifying a first alarming heat sensor", in combination with the manner claimed. The closest prior arts, Corl et al. US 4,870,394, Kimmel et al. US 6,972,676, Mande et al. US 4,198,625 and Kimura et al. US 4,581,604 teach similarly invention, however they fail to disclose the distinct limitations above, therefore, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Son M. Tang whose telephone number is (571)272-2962. The examiner can normally be reached on 4/9 First Friday off.
